

## **PROCUREMENT (DATA) ANALYST at SONIC**

*Can you take Sonic to the next data driven level with your ability to derive and translate data analytics to meet our procurement goals?*

### **OUR DNA**

Sonic Equipment is the specialist in high-quality hand tools, filled toolboxes and premium storage solutions. Founded in 2004 and now a leading brand with sales in more than 65 countries worldwide. In addition to Automotive, Sonic is active in the Agriculture, Truck, Industry, Bicycles and Motorcycles sectors. Our goal is to provide the perfect solution for technical professionals, always with the right balance between design, quality and price. Inspiring technicians with confidence and enabling them to excel in their daily job with joy and satisfaction.

### **OUR TEAM**

Our procurement & sourcing team is responsible for identifying and approaching new suppliers and maintaining the relationship with our key suppliers. Together with our procurement team you will be responsible for further professionalising our supply chain. Furthermore, you will support our product development with sourcing and introducing new products.

### **RESPONSIBILITIES**

As procurement data analyst we expect you to contribute to the decision making of Sonic's procurement team with your analyses and insights, by:

- Managing our product database and together with the procurement team source and manage new product introductions by conducting the complete cycle of gathering, checking, cleaning and using our data.
- Dealing on a regular basis with global internal and external customers including senior management, suppliers, consultants etc.
- Management of databases related to procurement financial data, budgeting, forecasting, etc..
- Develop metrics, dashboards, reports and insights for the procurement and management team.
- Ensuring and building deep and differentiating product expertise throughout the organization to further strengthen Sonic's position.

### **REQUIREMENTS**

You will be a key part of Sonic's growth engine and at the forefront of making the organisation increasingly successful. We are looking for an energetic person with a can-do mentality, with the ability to derive and translate data into insights and capable of providing data manage our product data and introductions.

- 1-5 years' experience as a (procurement) data analyst, buyer or similar role.
- Bachelor's or Master degree in area of economics, econometrics, business, finance or supply chain management. Procurement, purchasing and supply chain qualifications (CIPS/NEVI) are preferred.
- Result-oriented, strong organizational and problem-solving skills, and execution focused.
- Advanced skills in MS Excel.
- Experience in the Automotive or technical industry is a plus.
- Fluency in English is required (verbally and writing). German, Taiwanese and/or Mandarin are considered a plus.

### **BENEFITS**

- Opportunities for personal growth and learning, every single day.
- A flat, laid-back culture. Everybody is encouraged to participate in discussions and contribute.
- High-trust environment. We believe in giving autonomy to all our employees.
